

Yuvraj Singh

+91 9622006996 | yuvraj.manhas2608@gmail.com | LinkedIn | GitHub

Summary

Computer Engineering student with hands-on experience in Python, SQL, Machine Learning, NLP and software development. Passionate about Generative AI, workflow automation and building AI-powered applications.

Education

Pimpri Chinchwad College of Engineering, Pune
B.Tech Computer Engineering

Expected May 2027
CGPA: 8.62/10

Technical Skills

Languages: Python, C++, Java, C, SQL

AI/ML: Scikit-learn, Pandas, NumPy, Matplotlib, NLP, TF-IDF, Cosine Similarity, Regression, Classification, Clustering

Core: DSA, OOP, DBMS, Operating Systems, Computer Networks

Tools: Git, GitHub, VS Code, Jupyter, Google Colab

Web: HTML, CSS, REST APIs, JSON

Projects

AI-Based Movie Recommendation System

Feb 2026

github.com/YuvrajManhas/Movie-Recommendation

- Developed a content-based movie recommendation system using TF-IDF vectorization and cosine similarity to generate personalized recommendations.
- Built an NLP pipeline for preprocessing, feature extraction and similarity computation using Pandas and Scikit-learn.
- Integrated REST APIs to retrieve and process JSON movie metadata.
- **Tech Stack:** Python, Pandas, NumPy, Scikit-learn, NLP, TF-IDF, Cosine Similarity, REST APIs, JSON, Pickle, Git.

Automatic Time Table Generator

May 2025

- Developed an automated timetable scheduling system in Python using Constraint Satisfaction Problem (CSP) and backtracking techniques to generate conflict-free academic schedules.
- Implemented scheduling constraints for faculty, classrooms, laboratories, subjects and time slots while optimizing resource allocation.
- Reduced manual scheduling effort through automated validation and conflict detection with a modular object-oriented design.
- **Tech Stack:** Python, CSP, Backtracking, Object-Oriented Programming, Algorithms, Git.

Leadership

Marketing Head, OWASP Student Chapter PCCoE

Aug 2025–May 2026

- Lead marketing and promotional activities for cybersecurity events.
- Coordinate outreach initiatives and student engagement.

Certifications

Scaler – Python Course for Beginners; Great Learning – Python Projects; Coding Ninjas – Basics of Python
Repository: Certificates-and-Achievements
